Dr Ioannis Mallidis

Economist – M.Sc. in Maritime Logistics

Ph.D. in Quantitative Green Supply Chain Management

Postdoctoral Researcher

Laboratory of Statistics and Quantitative Analysis Methods, Industrial Management Division, Mechanical Engineering Department, Aristotle University of Thessaloniki, P.O. Box 461, Thessaloniki 54124, Greece, e-mail: imallidi@auth.gr

---

Short CV

Dr Ioannis Mallidis is a Postdoctoral Researcher at the Laboratory of Statistics and Qualitative Analysis Methods of the Industrial Management Division of the Mechanical Engineering Department of the Aristotle University of Thessaloniki (AUTh), Greece. In 2013, he received his Ph.D. in Quantitative Green Supply Chain Management, while in 2007, his M.Sc. in Maritime Economics and Logistics from the Rotterdam School of Management of the Erasmus University. Finally, he has received a bachelor's degree in Economics from the University of Macedonia in Thessaloniki. Dr Mallidis's scientific interests indicatively cover the fields of inventory management, sustainable supply chains, agrifood management, operations research and analytical optimization processes. He has published his research work in top peer reviewed Journals such as Transportation Research Part E, European Journal of Operations Research, Journal of Transport Geography, Journal of Simulation, and others, while achieving more than 290 citations in Scopus. He has also participated in several national and European research projects (e.g. GREEN-AgriChains) and acts as a reviewer in top per reviewed international scientific journals. In addition, Dr Mallidis is a lecturer in two undergraduate courses at the Mechanical Engineering Department of AUTh, and four undergraduate courses at the department of Business Administration of the Technological Educational Institute of Western Macedonia, and also works as a self- employed A – Class, financial and managerial accountant.
